

TRAINING ACADEMY OFFER

DECEMBER 2025

ADAPTIVE

SOLUTIONS & ADVISORY GROUP

GBS ACADEMY

GBS Academy delivers practical training for the Global Business Services teams, and equips professionals with the skills to optimize processes and enhance service delivery.

PMO ACADEMY

PMO Academy offers hands-on project, and program management training, expert guidance, and practical skills, covering best practices, tools, and methodologies to help professionals drive success, and deliver projects efficiently.

AI & IT ACADEMY

AI Academy offers a wide-ranging program of AI, and machine learning courses, giving you the practical skills, and expert support to succeed in real-world projects.

VAT ACADEMY

VAT Academy delivers practical training that allows participants gain a deeper understanding of complex VAT issues and apply practical knowledge with confidence.

GBS ACADEMY

GBS Strategy & Transformation

Design, scale, and transform GBS, from SSC setup to BPO strategies. Drive long-term value through process maturity, adaptability, and global best practices.

Process Excellence & Optimization

Boost operational efficiency, reduce costs, and build sustainable, high-performing business processes with clear documentation, and measurable outcomes.

Finance & Accounting Processes

Gain practical expertise in O2C, P2P, R2R, and FP&A processes to ensure accuracy, compliance, and strategic value across all finance and accounting operations.

Procurement & Supply Chain

Develop end-to-end procurement and supply chain capabilities. Drive cost savings, supplier performance, and operational excellence across global operations.

**Project
&
Program
Management**

Acquire globally recognized project management credentials that enable to plan, execute, and deliver projects on time, and within budget using industry-standard methodologies.

**Agile
&
Scrum
Methodologies**

Master proven frameworks to lead transformation, and scale agility across complex enterprise environments through hands-on practice with Agile & Scrum techniques.

**Lean
Fundamentals
&
Practice**

Drive continuous improvement, and optimize processes through Lean principles, and practical tools that support elimination of wastes, and efficiency enhancement.

AI & IT ACADEMY

Cloud Computing & Infrastructure

Build expertise, and earn industry-recognized certifications in designing, deploying, and managing scalable cloud solutions with hands-on labs, and real-case scenarios.

Software Development & Programming

Master programming skills through experience in building modern web, and mobile applications using cutting-edge technologies, and cloud-native development practices.

Data Science, AI & Machine Learning

Learn to build and deploy AI solutions. Unlock the power of AI, and machine learning to solve complex business problems through hands-on projects, and GenAI tools.

Data Engineering & Analytics

Transform raw data into actionable insights by mastering data pipelines, and cloud data platforms. Create compelling data stories that drive strategic business decisions.

AI & IT ACADEMY

DevOps & Automation

Master automation strategies from test automation to enterprise RPA that enable organizations to deploy code faster with greater reliability and security.

Cybersecurity & Compliance

Protect organizations from cyber threats by mastering hacking techniques, security architecture, and compliance frameworks through real-world attack simulations.

IT Service Mng & Business Analysis

Bridge the gap between business objectives, and IT solutions by mastering requirements definition, and service management practices.

Specialized & Emerging Technologies

Build expertise in emerging technologies like blockchain, IoT, and edge computing. Strengthen professional capabilities in digital marketing, and quality management.

EU VAT Fundamentals

Learn about fundamental VAT mechanism, and taxpayer identification, followed by an overview of VAT treatment for both goods and services, based on real-life documents.

Advanced VAT

Gain expertise in Chain & Triangular transactions, Reverse Charge Mechanism, and other VAT cases to navigate complex VAT scenarios with confidence.

Country Specific (EMEA/NAM)

Acquire in-depth knowledge of local VAT regulations, and compliance requirements essential for spotless operating in different tax jurisdictions.

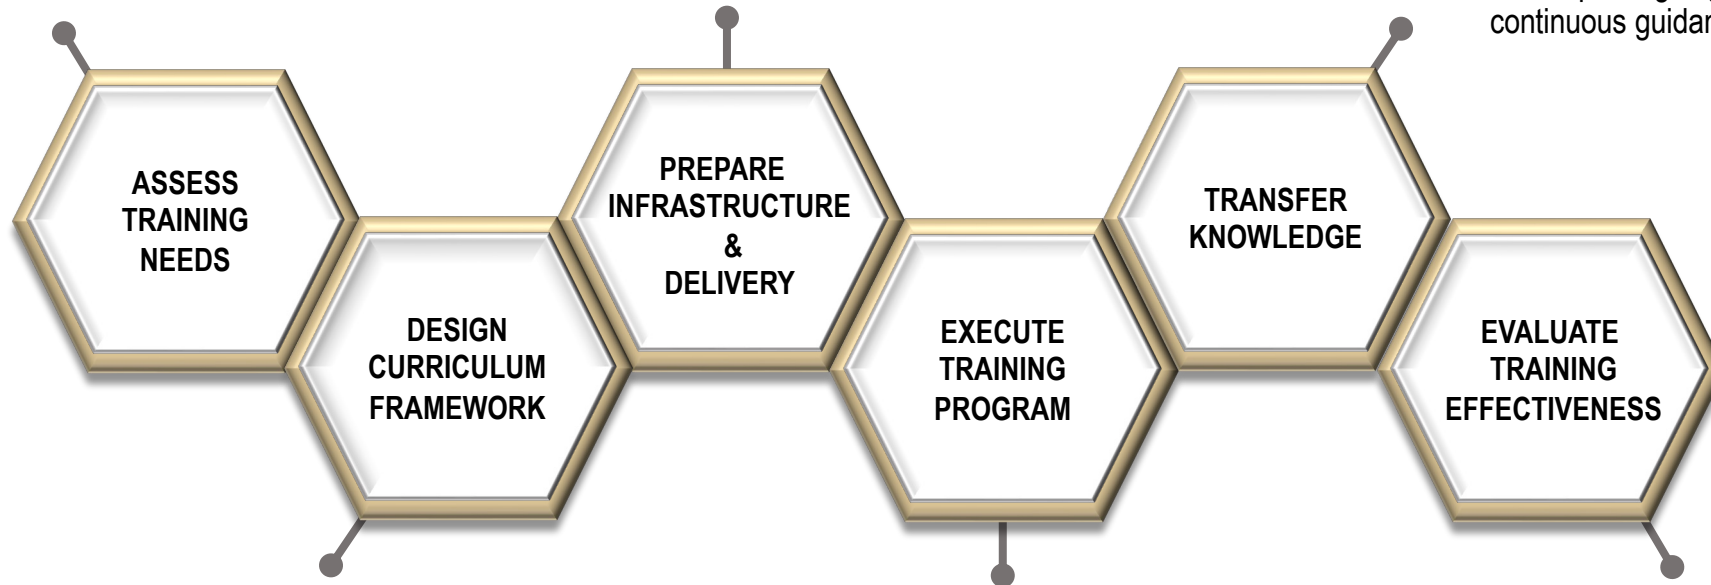

TRAINING ACADEMY METHODOLOGY

GROW WITH ADAPTIVE

- ✧ Evaluate current literacy levels and identify skill gaps across organizational functions
- ✧ Define training modes, and learning objectives aligned with business transformation goals

- ✧ Prepare certified trainers with deep expertise
- ✧ Develop supporting materials including practical checklists and resource libraries
- ✧ Prepare facilities for on-site sessions

- ✧ Establish internal champions network to continue knowledge sharing post-training
- ✧ Create documentation frameworks capturing best practices and lessons learned
- ✧ Develop ongoing support mechanisms for continuous guidance

- ✧ Develop customized training modules
- ✧ Create hands-on workshop components with real-world business scenarios

- ✧ Deliver structured learning sessions with optimal group sizes for maximum engagement
- ✧ Facilitate interactive workshops focusing on practical cases in SSC/GBS environment
- ✧ Implement progressive learning approach from foundational concepts to advanced techniques

- ✧ Gather feedback to optimize future training iterations and content relevance
- ✧ Define next-phase learning pathways for continued competency development

**ALL TRAININGS CAN BE TAILORED TO THE CLIENT'S REQUIREMENTS IN TERMS OF THE CONTENT AND TRAINING MODE*.
TRAINING MODEL TO BE CRAFTED BY DEDICATED ADAPTIVE CLIENT ACCOUNT MANAGER.**

Trainers

- ✧ Adaptive consultants
- ✧ Certified tax advisors
- ✧ AI & IT training experts

Training Modes

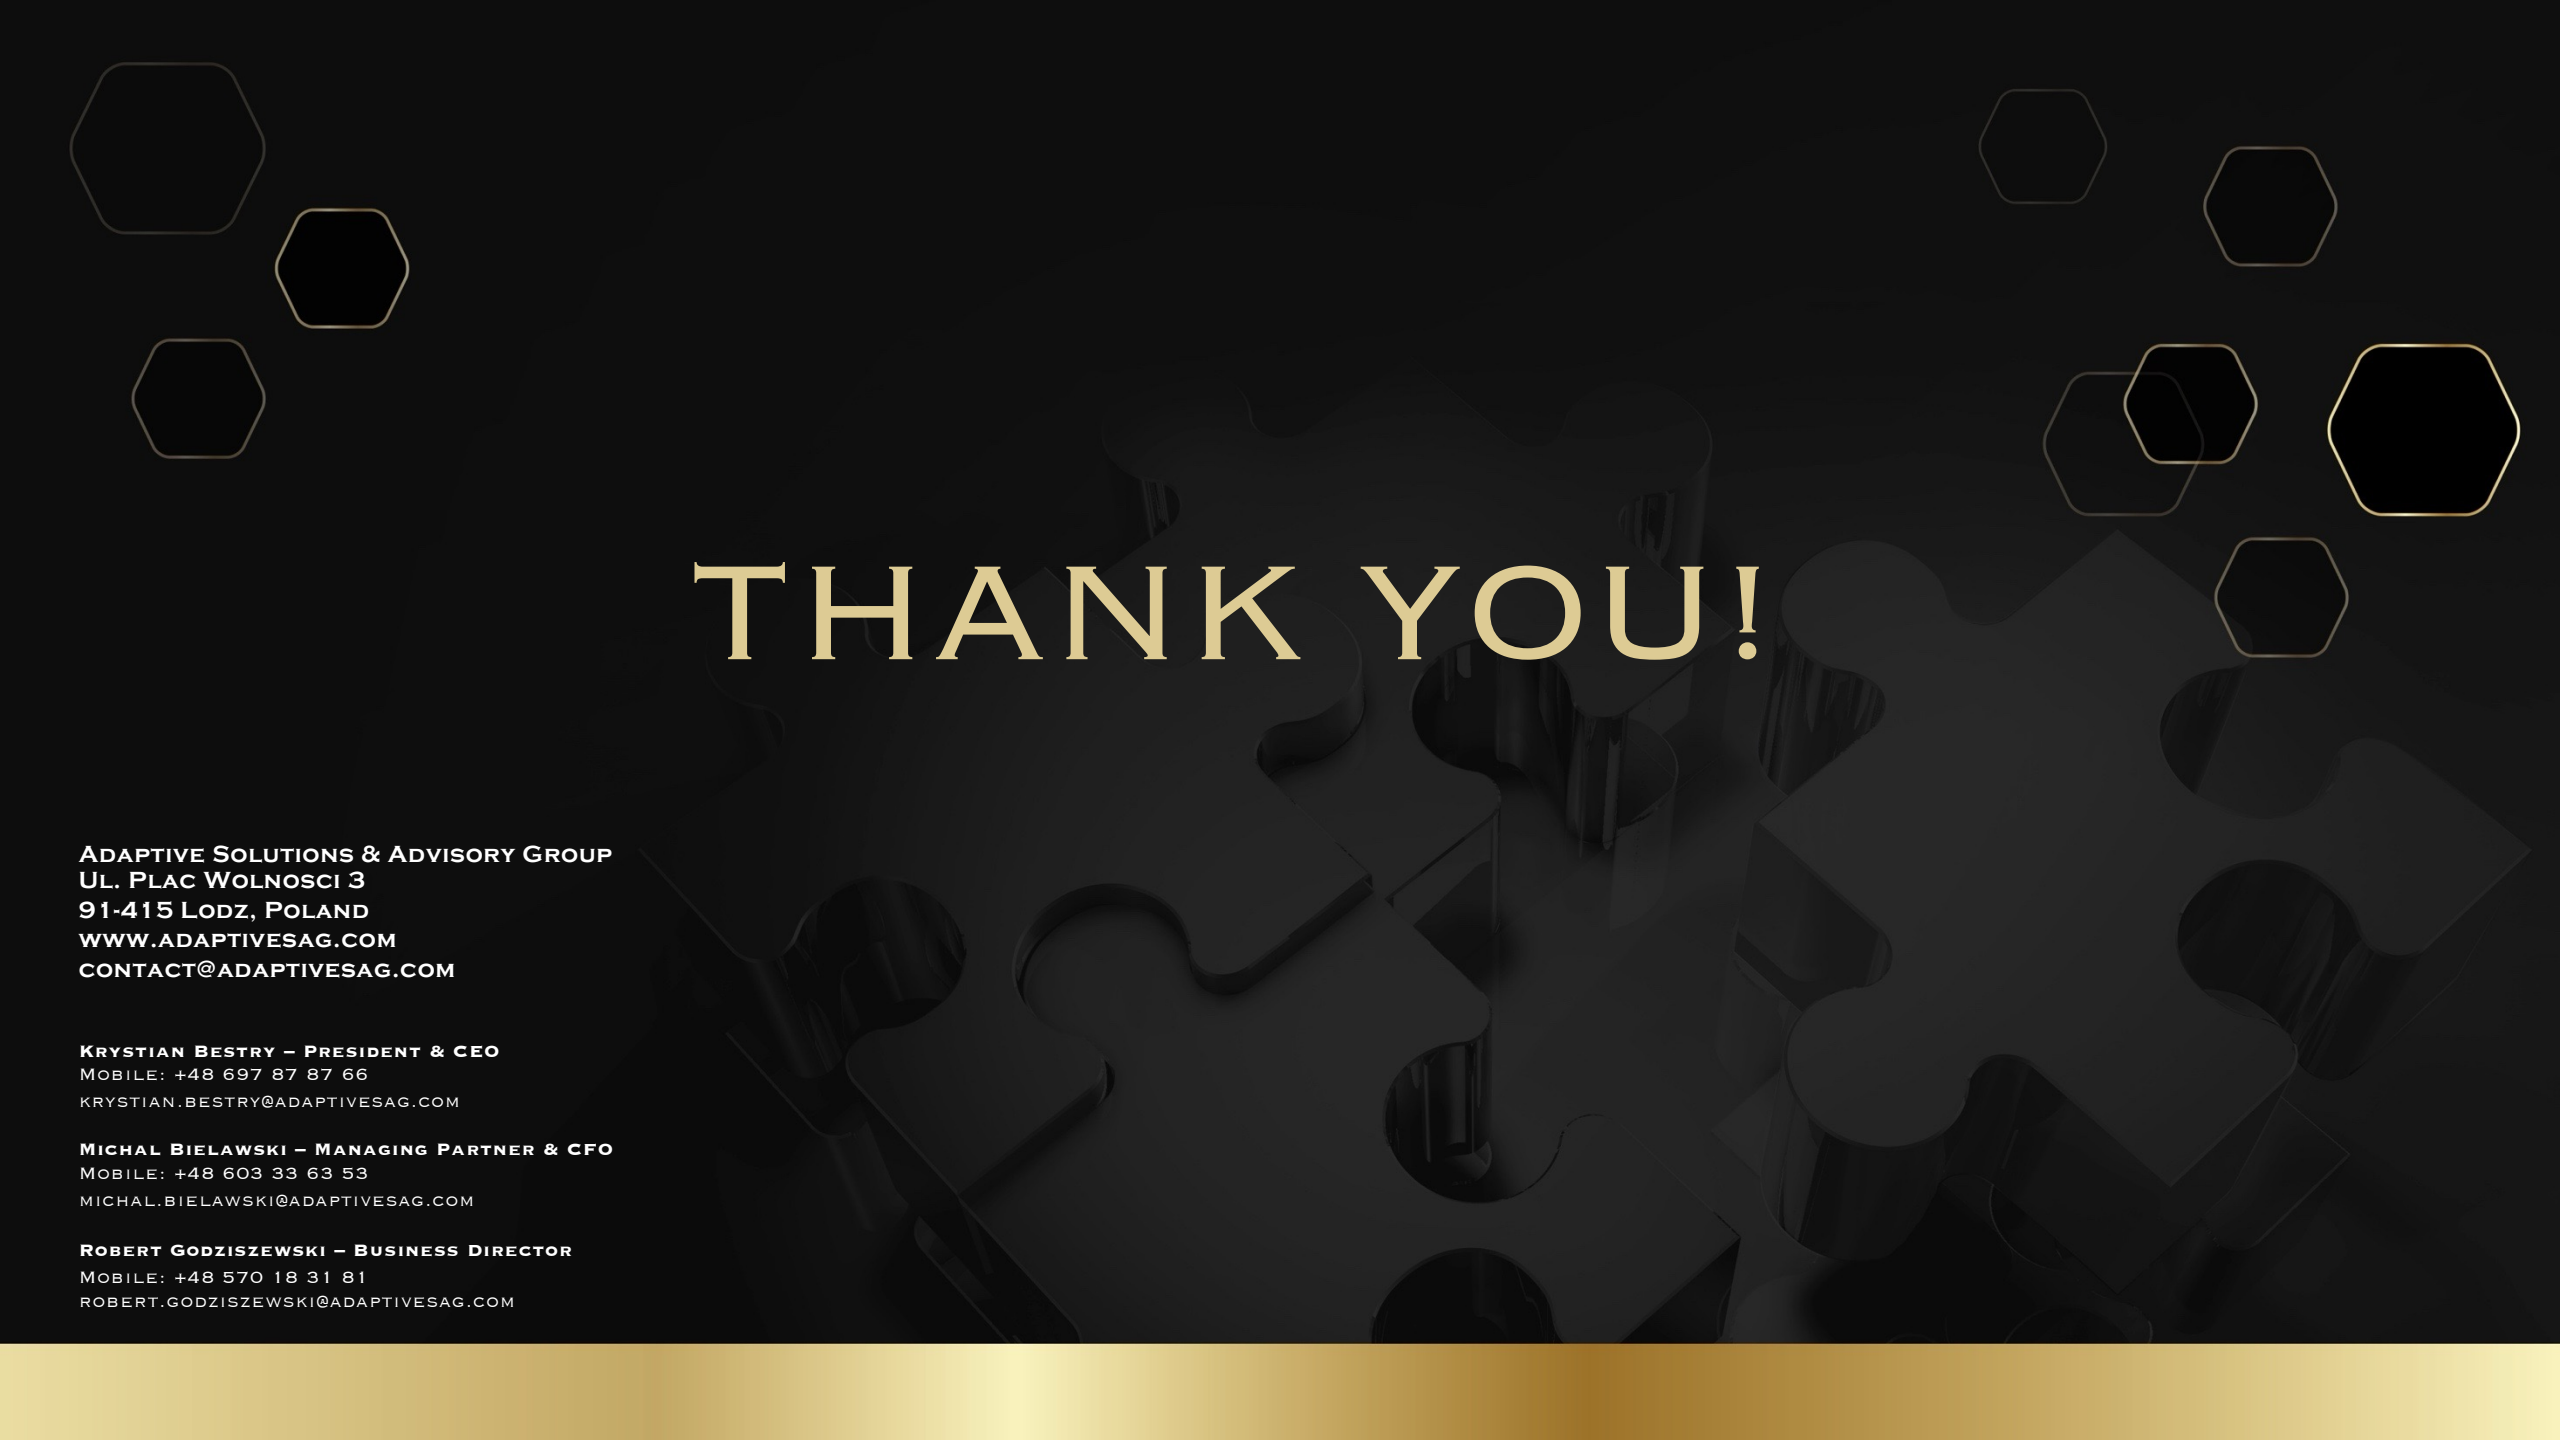

- ✧ On-line
- ✧ On-site
- ✧ Different level (basic, proficient, advance)
- ✧ For specific roles and Business Functions

Commercials

- ✧ Pay-Per-Training Model
- ✧ Individual Voucher Package
- ✧ Group Voucher Package
- ✧ Dedicated workshops for the group

* Adoption of the training may result in the price adjustment
